

Guildcrest Homes offer energy efficiency in all their homes

Guildcrest Factory Built Homes has always aspired to energy efficient building practices. Today, it is top of mind with clients and communities. "Our homes not only consume fewer scarce natural resources; they also offer comfort and durability," says Elia Gallo, Chief Financial Officer at Elliott Sage Design & Construction.

Elliott Sage and Guildcrest Homes are proud to be ENERGY STAR for New Homes Participants. "If you choose a Guildcrest you can be assured that while your home is being built and upon its completion, an independent energy advisor will inspect your home," adds Elia Gallo. Once it has met the ENERGY STAR for New Homes specifications your home will be ENERGY STAR qualified. An Energy Star approved home has 30 percent more energy efficiency than standard built homes. Clients can only benefit in comfort and savings.

Guildcrest has always incorporated energy efficient specifications into the homes they have built. "We are proud to be a leader in our industry and be a part of the ENERGY STAR for New Homes initiative. We are always striving to further our environmentally friendly efforts to give our clients the best we can offer!" says Peter Sage.

THIS MONTH...

Saturday, March 29 10a.m. to 6p.m.

Sunday, March 30 10a.m. to 4p.m.

ELLIOTT SAGE DESIGN & CONSTRUCTION SHOWCASE OF FINE LIVING

The 2007 Residential Project winner was designed by Dan Bisnaire, our Senior Designer at Elliott Sage.

Elliott Sage Homes Win Building Awards

On Thursday, February 21, 2008, two Elliott Sage built homes were celebrated at the annual Prince Edward County Construction Association annual dinner. The Waring Hall Banquet facility was filled with contractors, councillors and local planners, trades people and industry service providers; all there to honour building excellence in their field. Elliott Sage homes were awarded the 2007 Residential Project of the Year and the 2007 Residential Award of Merit.

"This was an interesting, challenging project to

design and build," says Peter Sage, President of Elliott Sage. "We have a very talented team of designers working with us," he adds.

The Residential Project of the Year was awarded to a home that epitomized the quality and craftsmanship Elliott Sage Design & Construction has become known for.

"We are constantly exploring new technologies and building methods to create beautiful homes that further better our clients lives," adds Peter Sage. "We are looking forward to an exciting 2008!"

Kathy Cobb Celebrates 10 Years with Elliott Sage

Kathy Cobb, Elliott Sage's Operations Manager is one of the first faces you'll see when visiting the offices of Elliott Sage. Kathy's enthusiasm and friendliness instill confidence with potential clients. She makes them feel right at home! For 10 years Kathy has brought a vast array of corporate business experience to the day-to-day operations of Elliott Sage. A team player in the company, she provides seamless administrative support as well as helps to plan and implement strategies, keeping the company running smoothly from day to day. Kathy epitomizes as well as upholds the philosophy and image of Elliott Sage in building quality and trust. She is passionate about her work and has been instrumental in helping develop the company to its present standard of excellence.

*Congratulations
Kathy!*
